

# AIR CARGO SECURITY

SECURITY

## AIR CARGO SECURITY TRAINING IS A MANDATORY REQUIREMENT FOR MANY COMPANIES OPERATING IN THE UK.

The purpose is to ensure everything possible is done to deter and prevent attempts to place an explosive device, or any other item that can be used to endanger the onboard safety of any passenger, cargo or mail aircraft. Thousands of companies operating in the UK Air Cargo industry must comply with these regulations.

## MITIE'S AIR CARGO SECURITY SOLUTION

Our in-house air cargo security experts are highly experienced and approved by the UK Department for Transport (DfT) to deliver all air cargo security training courses, including X-ray training (Cargo/Mail).

There are various Air Cargo Security courses that can be undertaken. All of our Air Cargo Security courses and training programmes are approved by the DfT and endorsed by the UK Civil Aviation Authority (CAA).

### REGULATED AGENT / AIRCRAFT OPERATOR

#### REGULATED AGENT / AIRCRAFT OPERATOR TRAINING

There are various courses available to a Regulated Agent or Aircraft Operator that can be undertaken, with all our programmes approved by the DfT and endorsed by the CAA.

From the introductory Cargo Aviation Security Principles course, through to the Cargo Manager course, all of our programmes are conducted in an interactive style, encouraging discussion and raising awareness of the risks associated with complacency.

All of our courses feature extensive visual aids, real-life scenarios and reinforce the need for constant vigilance.

Written tests are carried out at the end of each course to confirm participants understanding. Refresher training is required every two years for all courses, and the National X-ray Competency Test (NXCT) is required every 13 months for X-ray Operators.

Throughout our training programmes, much emphasis is placed upon encouraging a culture of security awareness in the workplace.

Mitie offer customers training at their own premises to maximise the efficiency of training delivery. We can also deliver some courses virtually, via platforms like Microsoft Teams, etc.

### KNOWN CONSIGNOR

#### KNOWN CONSIGNOR TRAINING

There are three Known Consignor Security courses that can be undertaken, with all our programmes approved by the DfT and endorsed by the CAA.

From the introductory basic course, through to the advanced course, our programmes are conducted in an interactive style, encouraging discussion and raising awareness of the risks associated with complacency.

All of our courses feature extensive visual aids, real-life scenarios and reinforce the need for constant vigilance.

Written tests are carried out at the end of each course to confirm understanding. Refresher training is required every two years for all courses.
